PROFESSIONAL SUMMARY

Full Stack Developer and AI Enthusiast with experience building scalable web, mobile, and intelligent applications using React, Node.js, Python, FastAPI, MongoDB, Firebase, and Generative AI technologies. Skilled in DevOps workflows, CI/CD, cloud deployments, real-time systems, Computer Vision, NLP, and AI-assisted software engineering. Passionate about creating innovative products that combine modern full-stack development with practical AI solution.

TECHNICAL SKILLS

Programming: Python, Java
Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Vite
Backend: Flask, Node.js, Express.js
NLP: Sentiment Analysis.
Deep Learning: PyTorch
Computer Vision: OpenCV
Data Processing: Pandas
Databases: MySQL
Tools: Git, GitHub, Docker (Basics), Linux (Basics)

PROJECTS

TravelLoop V2 – Intelligent Travel Management System

Technologies: MERN Stack, Firebase, Socket.io, Tailwind CSS, Vite, Capacitor, Google OAuth 2.0, JWT, Google Maps API, Gemini API, Git, GitHub, Vercel.
• Developed a full-stack travel platform with dedicated portals for travelers, agents, drivers, and administrators.

Sentiment Analysis System

Technologies: Python, Scikit-learn, NLP

- Developed a machine learning model to classify text into positive and negative sentiment.
- Implemented preprocessing techniques such as tokenization, stopword removal, and vectorization.
- Trained classification models using Scikit-learn for sentiment prediction.

CrowdGuardAI – Crowd Monitoring System

Technologies: Python, OpenCV, Computer Vision

- Developed an AI-based crowd monitoring system using computer vision techniques.
- Implemented OpenCV to analyze video frames and detect crowd density.
- Designed the system to support crowd management and safety monitoring.

EDUCATION

Bachelor of Engineering – Artificial Intelligence & Machine Learning

Mahendra Institute of Technology (Autonomous)
2024 – 2028 | **CGPA: 7.02**

ACHIEVEMENTS

- Participant – iTech Summit 24-Hour Hackathon, PSG Institute of Technology and Applied Research
- Participant – 24-Hour Protothon, Hindustan Institute of Technology and Science
- Python Programming Certification (86%) – Python Exam WK-1, Feb 2026
